Grant Priorities

The Lake County Community Foundation accepts proposals that fall within its five funding priority areas:

Addressing Basic Human Needs (BHN) Priority Area

The Foundation continues to support organizations that work collaboratively to address basic needs of our residents. The Foundation accepts proposals for both program/project-based initiatives and for general operating support. We believe Lake County’s basic human needs can be met when *everyone* has equitable access to:

- Affordable, nutritious food
- Affordable, comprehensive health care
- Safe and affordable housing
- Transportation
- Education and workforce opportunities
- Immigration and legal support services

The Foundation’s goal is to invest in work that allows people who are disproportionately affected by lack of access to obtain support in several areas of extreme need through wrap around services, a continuum of care, or close collaborations with other providers. Grants will be prioritized for work that:

- Addresses barriers to access of services and benefits for our neighbors in Lake County
- Addresses otherwise unmet basic needs as the only service provider in the area

Basic Human Needs Competitive Grant Cycle Process and Timeline

NEW – Maximum grant request increased to \$50,000

LCCF uses a letter of inquiry (LOI) process in the BHN Grant Cycle. The LOI template requires organizations to briefly summarize their funding request and expected outcomes. The LOI will be available on the LCCF [website](#) on **January 10, 2022** and will be due via email by **January 28, 2022**. LCCF will then review submitted LOIs and will invite select organizations to submit full proposals. Full proposals will be due by **March 4, 2022** via email.

This cycle does **not** include an LOI process – the cycle follows the Foundation’s full application process.

Nonprofit Capacity Building – *NEW*

****Read more about this new priority area [HERE](#)****

LCCF has launched a new funding priority area designed to help nonprofits build their internal capacity so they can better serve the community. At LCCF, we recognize that capacity building grants are a critical tool in supporting nonprofit sustainability, efficiency and growth.

- These grants are intended to support one-time organizational costs and expenses. **No reoccurring salaries, fees or costs will be considered.**
- Funds may be used to either support a consultant/contractor/trainer or to cover staff time required to complete a capacity building project.
- Receiving a capacity building grant award does not preclude your organization from receiving funding via the Basic Human Needs Grant Cycle, which typically opens annually in January; you may apply for and receive both grants.

Background

The Lake County Community Foundation asserts that the quality of life of Lake County can be improved through an earnest effort to bring community members, organizations, government, businesses, corporations and civic leaders together to establish a common vision, adopt a shared set of measurable goals and pursue evidence-based activities that reinforce those goals as a means of addressing the most pressing needs of our community.

By being proactive in identifying opportunities that advance its mission, the Foundation focuses on making measurable impact on high priority issues with its available funding and additional resources. The Foundation envisions a countywide health and human services delivery system that is robust and thriving with a network of providers capable of achieving the greatest impact on the growing and changing needs of our Lake County neighbors. With an emphasis on partnership and collaboration, while using innovation and organizational strength as its compass, the system will foster transformational change in communities across Lake County.

Foundation Mission

The mission of The Lake County Community Foundation is to improve the quality of life of the most vulnerable residents of the county by providing civic leadership, promoting collective philanthropy and partnering with our grant recipients. In pursuit of this mission, we act as a:

- **CATALYST** – by mobilizing community leadership to find and fund collaborative, innovative approaches to address Lake County’s most pressing issues.
- **CONNECTOR** – by maintaining in-depth knowledge of the nonprofit sector, sharing it with others and building partnerships that strengthen our community.
- **GRANT MAKER** – by leveraging the power of collective philanthropy to pool charitable dollars to achieve the greatest possible impact.
- **STEWARD** – by acting as a trusted guide of donor resources and partnering with community-minded individuals, families and organizations to ensure a legacy for charitable solutions.

Foundation Values

The Lake County Community Foundation, honoring a century old tradition of community philanthropy, awards grants to nonprofit organizations that are addressing the most pressing needs of residents in our county. As a community leader and steward of donor resources, the Foundation believes that large scale social change requires broad, cross-sector coordination versus isolated intervention.

Recognizing that successful grant making is rooted in clearly articulated values, the Foundation envisions a community that models:

- **Community and Connectedness**

- **Civic Leadership**
- **Equity**
- **Integrity**
- **Innovation**
- **Opportunity**

Diversity Statement

The Foundation believes that the diversity of our community is a fundamental strength of our region. Our mission to improve the quality of life for the most vulnerable residents of Lake County is best fulfilled when we embrace diversity as a value and a practice. We define diversity to include (but not limited to) age, disability status, economic circumstance, ethnicity, gender, race, religion and sexual orientation.

The Lake County Community Foundation requires all applicants to either have an adopted diversity statement or to adopt the Foundation’s [Diversity Statement](#) if there is not one in place. Additionally, the Foundation asks that applicants provide demographic data on board and staff as well as clients/beneficiaries of the projects. The Foundation believes that the board and staff composition of grant recipients should reflect the diversity and demographics of the community being served and include diversity among its leadership at the board and senior staff levels to ensure variation of perspective across all decision-making levels. For this reason, the Foundation does take into consideration the demographic make-up of the board, staff and clients of a grant applicant as an important evaluation criterion.
